

ABOUT

John is an alien, originating from Alpha Centauri. His original form is a sort of silver, liquid sphere.

Arriving to the universe with plans for world domination, John took the form of an African Wild Dog and created his new identity to blend in.

Unfortunately, exposure to oxygen has resulted in some brain rot, and John largely forgot why he's in the universe. Instead, he goes about vibing with his new friends, while also being a bit of a chaotic nuisance to everyone else. He can best be described as some sort of cool himbo dude. He is gay, and embodies the "dudes rock" spirit.

He enjoys chaos, is somewhat of an adrenaline junkie, and risky behaviors are his day to day life. Unsurprisingly, he has no respect for authority and is wanted in countless municipalities.

John transcends all spatiotemporal limits. Local variations of John have been reported in nearly all countries and in every continent (including Antarctica). If you see him, do not approach (unless you're gay and looking for a good time). Contact local authorities immediately (unless you're gay and looking for a good time).

IMPORTANT DETAILS

JOHN'S EARS ARE BROWN ALL AROUND.

John has 2 scars, one in his left eye (aka the eye with the blue iris), and one in his left leg. His eye scar should be long and noticeable. The leg scar is more subtle.

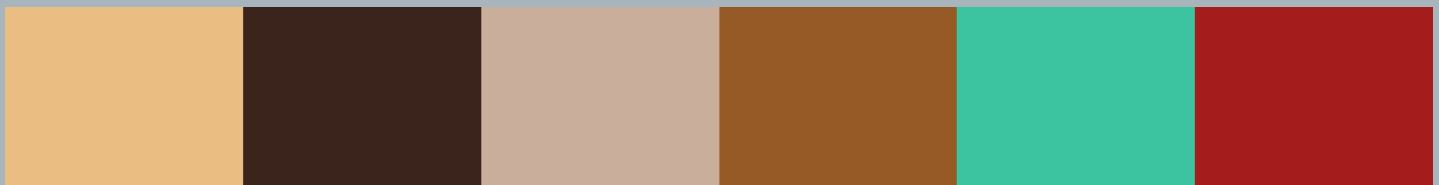

His glasses can be thick or thin, and in a rectangular shape (in other words, black normal looking glasses). He has some subtle facial hair.

John has an average body, and the abs are optional, so depending on the artist, he can be a little bit scrawny or a little bit chubby. However, please keep his body shape close to what is depicted on the ref sheet below. Nipples are also optional; they are the same brown as his body and are pierced.

If you wanna draw him, feel free to do so, as long as it's not meanspirited or hateful. If you wanna draw NSFW of him, please ask me first.

If you have any ref sheet requests, such as clothes combinations and others, contact me at the links above.

John's colors are provided below:

Primary Light: E8BE8A Primary Dark: 422A22 Primary Fluff/Tail: C9AE9B

Left Eye: 91560E Right Eye: 00CB9E Eye Scar: 9F0000
